Sir:

This response is submitted in response to the Notice to Comply with requirements for Patent Applications containing nucleotide sequence and/or amino acid sequence disclosures mailed from the Patent Office on May 8, 2006, a copy of which is attached.

The following sequence statements for the instant application, which allow the use of the latest sequence listing filed in U.S. Serial No. 09/795,040, filed February 26, 2001, are hereby submitted. The instant application is a divisional of 09/795,040, which is incorporated by reference in the instant application.

In accordance with 37 CFR 1.821(e), please use the last-filed computer readable form filed in the 09/795,040 application as the computer readable form for the instant application. I hereby state that the paper copy of the Sequence Listing filed with this statement for the instant application is identical to the computer readable copy of the Sequence Listing filed in the

09/795,040 application. It is understood that the Patent and Trademark Office will make the necessary change in application number and filing date for the instant application. A paper copy of the Sequence Listing is included in a separately filed preliminary amendment for incorporation into the specification.

I hereby state, as required by 37 C.F.R. §1.821 (f) that the content of the paper and computer readable copies of the Sequence Listing, submitted in accordance with 37 C.F.R. §1.821 (c) and (e) respectively, are the same.

I hereby state, as required by 37 C.F.R. §1.821 (g), that the enclosed submission includes no new matter.
